

Innovative GIS Solutions for Government and Industry

Why your organization needs effective GIS training

- Are you or your GIS technician being as productive as you can be?
- Does your map maintenance activities take longer than you expect?
- Are your technicians spending more time maintaining data than analyzing them?
- Is the security of your geospatial data in doubt?

Today, local government agencies are required to do more work with fewer and fewer people. GIS specialists want to use the system to address real-world issues but there is less and less time to do so.

If you have any doubts about the above issues, then EI Technologies, LLC can be of service to your organization.

EI Technologies' GIS Training is the solution!

EI Technologies employs manufacturers' certified trainers with extensive hands-on experience using ArcGIS and GeoMedia products. Our trainers design training workshops to help all users' levels to improve their skills.

The success of any GIS implementation depends in a large degree on the people who use and manage the system. GIS staff must understand how to maintain accurate and up to date data, and end users must be capable of using desktop, web-based, and mobile GIS applications depending on their job function. EI Technologies addresses these issues by providing on-site, customized GIS training to end users and GIS administrators.

EI Technologies' consultants have trained hundreds of GIS users and specialist employed by such organizations as the following:

US Navy • Kansas Department of Transportation • National Geospatial Intelligence Agency (NGA) • City of Longview, TX • Regional Municipality of York, ON • Yuma County, AZ • ArmyDPW, HI • HNTB Engineers • City of Oceanside, CA

Passionate About Quality | Committed to Customer Service

Benefits of EI Technologies' GIS Consulting Services

EI Technologies will explore assess, and report on these key areas of your GIS:

- Department needs and strategic opportunities
